We are definitely not talking about Windows, Mac OS X or Linux, or even BSD or Solaris.. But I'm on a Mac now so Foobar isn't an option Anyway, one of the Foobar2000 plug-in I like is the binary comparator.. I would like to find something similar for the Mac so I don't have to constantly fire up my old XP machine just to run Foobar.. There are much less mainstream options out there for the OS-curious May 28, 2020 10.
